

What's New?

- Rega amplifiers and source components
- Excellent matching components for PMC speakers

Apollo-R CD Player

- New Wolfson WM8742 DAC
- Enhanced Output amplifier circuit
- Enhanced Digital power supplies
- Improved user interface
- Redeveloped Analogue & Digital outputs
- CD remote with amplifier functionality
- Dimensions: Width 220mm x Depth 320mm x Height 90mm
- Dimensions needed to operate: Width 220mm x 350mm Depth x Height 180mm.

Brio-R Amplifier

- 50w RMS pc into 8ohms
- 73w RMS pc into 4ohms
- Remote control
- 5 inputs
- Rega brand new custom manufactured case
- Rega phono stage (Input 1)
- Toroidal mains transformer
- Sanken 150w output transistors
- Dimensions:Width 220mm x Depth 320mm x Height 80mm

Elex-R Amplifier

- Rega custom full width case with improved heat dissipation
- Combined feedback & passive volume control pre-amp
- 90 watts per channel into 6 Ohms / 72 watts into 8ohms
- High specification integrated phono stage
- New multi-lingual user manual
- Enhanced power supplies for the driver stage
- Hybrid of the Brio-R and Elicit-R design
- Dedicated mini remote handset included
- Pre-amp out / Record out / 4 line inputs
- New custom transformer

RP1 Turntable

- Plug and Play design, set-up in less than thirty seconds.
- Hand assembled RB101 tonearm.
- High quality, low vibration motor.
- Phenolic resin, flywheel effect platter.
- Factory fitted Carbon moving magnet cartridge.
- Performance Pack upgrade available factory fitted or as an aftermarket upgrade pack (optional).

RP3 Turntable

- Hand assembled RB303 tonearm.
- 24v low noise motor / float glass platter.
- Lightweight double braced plinth.
- Precision main bearing.
- Factory fitted Elys2 MM cartridge (optional).
- Compatible with the TT-PSU electronic speed change and power supply box (optional).
